

About us

Chitrapata is a visual art atelier from India. We create artworks using our in-house deep tech generative art platform built on open source technology stack.

Vision

Foster discussions and debates among various groups through art.

Mission

Reinterpret social, economic, and political events and challenge firmly held beliefs and dominant narratives promoted by those in power.

Encourage the exploration of our rich heritage to gain a better understanding of past chaotic conditions that have shaped our current ways of life, attitudes, and thought processes.

Steer discussions towards finding "order in the chaos" and examining potential new ways of living in the future.

Goal

Be recognized as one of the top 15 international art ateliers by brand recall and be among the top 50 studios by market value by 2030.
